  - Ysidro M. Zavala – Preferred Waterflow
- March minutes approved with several changes.
- Treasurer's report: Contact treasurer for current balance; 268 members.

### Old Business:

- There was serious discussion regarding the proposed geographical tester listing that CBPA is being asked to host. This database would be developed by the Cross-Connection Control Advisory Committee and then hosted on the CBPA's website.
  - Some viewed this as a conflict of interests.
  - Some recommended that we list ABPA certified testers only.
  - Others felt that we were doing the State's work.
  - A motion was approved not to host the geographical listing on the CBPA website for the Advisory Committee.
- Please keep your email address current with CBPA's records to insure you continue to receive the newsletter by email. You can opt out of either the email or

- hard copy format of the newsletter at any time by sending your request to [info@backflow.org](mailto:info@backflow.org) and specifying if you prefer email, snail mail, or both.
- Preliminary copies of the PACE Award were available for review. Send any further submission ideas to Paul Tedesco.

### **New Business:**

- A white postcard with the CBPA name and address was mailed from Denver on April 2<sup>nd</sup>. If you or anyone you know has received this postcard please handle it as little as possible, place it in a Ziploc bag and submit it to one of the officers at your earliest convenience.
  - This postcard was not mailed by the CBPA.
  - The CBPA does not endorse the positions put forth in the postcard.
  - The postcard constitutes mail fraud and is being investigated as such by the appropriate authorities.
  - We encourage you to contact any one of the officers and volunteers any time you have questions.

### **Future Meetings:**

- May 4<sup>th</sup> – 7<sup>th</sup>** ABPA Annual Conference, Detroit, MI.
- May 14<sup>th</sup> 9 a.m.** Arvada Waste Water Facility.
