President's Remarks:

Since this is the Annual Picnic we are meeting outdoors, and there are many family members and guests here, we should postpone regular business until the July meeting.

Unfinished Business:

Fred Spengler and Charlie Sullivan attended the public hearing on June 14 about the proposed fire suppression rule change. Testers will be required to register as fire line contractors under a new backflow assembly tester category. Proof of insurance will be required but the committee is waiting for clarification from the regulatory commission about insurance. Continuing Education Units will not be required at this time.

It was agreed that CBPA should provide some training about working on fire systems. We already have the video available on the Website. A stand alone training session could possibly be added as a pre- or post-conference event in November.

The Training Units for the 2005 conference have been approved by OCPO. When the certificates were printed, the Distribution TUs of 0.95 was mistakenly omitted. If anyone should require the OCPO email stating the approvals, please email secretary@backflow.org.

New Business:

Jim Purzycki was given a plaque and awarded the status of Honorary Chapter Member. Many thanks go to Jim for all the years of support for CBPA even though he resides in Southern California.
