

5 September 2001 Minutes

Location: Arvada Wastewater Facility

Those in attendance: Robert Stevens-Denver Water, Leigh Fenton-City of Castle Rock, Fred Spengler-Backflow Testing and Consulting, Scott Campbell- Advanced Backflow, Judy Schmidt-City of Arvada, Jason Everts-CCS Inc., Craig Florence-Dillon Company, Tara Thorp Conyers-City of Arvada, and Stu Asay-Drinking Water & Backflow Prevention magazine.

0920 Meeting Brought to Order

- Newsletter Committee – Craig Florence suggested members who get email copies of the newsletter get the email version only and not a hardcopy and the email version. This was suggested as a cost saving method for the association to save on the cost of printing and postage.
- Website – Discussion took place about the Advisory Committee website addition to the CBPA site. Gary Edwards was not present to answer technical and other logistical questions raised.
- Conference - Discussion took place about acquiring the ability to accept credit cards for payment on the conference and also membership dues. Costs and future dues fees or credit card payment fees to be looked into at another time. C.E.U. or training units packet has been sent into the State of Colorado's approval committee. Will know sometime closer to the conference what if any the amount of training units the conference will receive.

1035 Meeting Adjourned

Post meeting notes: Those in attendance helped prepare the packets that are to be handed out to the conference attendees.
