MESSAGE FROM YOUR PRESIDENT

The election was a close one again this year. We had 40 percent of the membership vote. An appreciation goes out to all CBPA members for the confidence that has been given to the newly elected officers.

We want to thank our past officers for serving with us. A big thank you to Fred Spengler, past Vice-President and Tamra Krebs, past Secretary.

I'm excited to have been re-elected as your President and I look forward to the challenges and expectations for the new year. Leigh Fenton will continue as Treasurer which is an extremely important position. Congratulations Leigh, and thank you for all of your dedication and support.

The following two new officers are on-board and excited about 2002.

Jason Everts is your new Vice-President. He is a certified Cross-Connection Control and Backflow Prevention Device Technician in the State of Colorado. He assists with instructing the backflow prevention technician classes at Red Rocks Community College, Environmental Training Center. Jason is the former Managing Editor of *Drinking Water & Backflow Prevention magazine*. He owns and operates his own backflow preventer testing, repair, and consulting business in the Denver Metro area and does work across the state. He has been active with CBPA and has high hopes for the organization.

Paul Tedesco is your new Secretary and works for the City of Northglenn. He's been Northglenn's Backflow Prevention and Industrial Pretreatment Specialist for almost two years. Prior to that he was earning a degree in Environmental Science at Washington State University. He's a native of Spokane, Washington, and came to Colorado primarily for a change of pace. Paul is looking forward to meeting all of you and serving your needs in the year to come. A big WELCOME to both of you.
