COLORADO BACKFLOW

PREVENTION ASSOCIATION

PRESENTS

THE

FIFTEENTH ANNUAL

CONFERENCE AND EXPOSITION

“ARE YOU THE HAZARD?”

NOVEMBER 16, 2006

JEFFERSON COUNTY FAIRGROUNDS

Thursday, November 16, 2006

OPENING REMARKS: What is happening in the industry?

Reports from:

- ABPA National & ABPA Regional 5
- CBPA
- Backflow Prevention Education Council of Colorado (BPECC)
- Colorado Department of Public Health and Environment (CDPHE)

Do you know how to limit your liability as a tester or a water purveyor? Look here to find some answers.

Round Table

Discussions will include participants from the CDPHE, National ABPA, local testers, and inspectors.

**Catered luncheon with keynote speaker:
E.C. Gaffney, Ph.D**

There will be a **2 hour Backflow Assembly Repair Session** presented by *Mr. Pete Chapman* with Apollo Industries

Next will be an in-depth look at both the ABPA and ASSE **test procedures for the double check valve assembly:** what the test means, how to evaluate the readings and troubleshoot the failing assembly.

Meet the vendors and learn about their products and services from 3:00 until 7:00 p.m.

Enjoy **Finger Foods, Refreshments**, including wine and beer, **Live Entertainment** and **Door Prizes**

Not able to attend the full day, but you would like to come for the vendor session? Purchase a \$10 Vendor Session Guest Pass and join us from 3:00 until 7:00 p.m.

Friday, November 17, 2006

IF YOU TOUCH BACKFLOW ASSEMBLIES ON FIRE SUPPRESSION SYSTEMS....YOU NEED THIS CLASS

Due to the changes taking place in the Fire Suppression Program of the Colorado Department of Public Safety, CBPA now offers additional training for working on backflow prevention assemblies that are on fire suppression systems. This class will be presented by **Charlie Sullivan**. Charlie, a member of the Education Committee of the CBPA, is an ABPA Certified Tester, an ABPA Proctor, a Colorado Registered Fire Suppression System Contractor and has been installing fire suppression systems in Colorado for many years.

Please indicate on the registration form if you would like to attend this class.

The cost of this class is \$ 50.00.

Additional classes will be offered at a later date.

We are offering a four hour class for a Red Cross certification in CPR as a follow up to last year's four hour class in confined space training. OSHA requires persons involved in a confined space project to be trained in first aid and CPR. This class will be limited to the first 24 people.

Please indicate on the registration form if you would like to attend this class and receive a Red Cross certification for CPR.

The cost of this class is \$ 40.00
